Who Should Attend and Why

If you have COPD, or are caring for someone with COPD, please join us for this up-to-date information in an open education program.

Learning to manage your COPD (chronic bronchitis and emphysema) is an important part of maintaining your health and regaining hope.

Dr. Don Sin will discuss how you can take a more active role in managing your COPD, including medications and managing exacerbations.

RSVP

Space is limited. Please confirm your attendance as soon as possible to:

BC Lung Association
 (604) 731-5864 or 1-800-665-5864
